

---

Claim 1 (once amended). A table glide adapted for a permanent attachment to a leg of a table comprising:

- (a) a mounting member being secured to a floor contact member;
- (b) the mounting member being adapted to secure the floor contact member to the leg;
- (c) the mounting member including an outer threaded cylinder and a threaded glide mount;
- (d) the mounting member being adapted to cooperate with a securing means on the leg in order to permanently secure the floor contact member to the leg and to form the table glide; and
- (e) the outer threaded cylinder being adapted to provide a positioning means for the floor contact member;
- (f) the outer threaded cylinder being hollow;
- (g) the outer threaded cylinder having inner threads and outer threads;
- (h) the threaded glide mount having a tamper proof head and a threaded member; and
- (j) the threaded member being adapted to fit into threaded relation with a threaded insert mounted within the table leg.

A<sub>6</sub>

Claim ~~2~~ (once amended). The table glide of Claim 1 further comprising:

(a) the outer threads being adapted to have male-female relationship with a threaded insert of the securing means;

(b) a threaded aperture receiving the threaded insert at the outer threads thereof; and

(c) the outer threaded cylinder receiving the threaded member at the inner threads thereof.

Claim ~~3~~ (once amended). The table glide of Claim ~~2~~ further comprising:

(a) the outer threaded cylinder having a collar head secured thereto;

(b) the collar head being oppositely disposed from the floor contact member;

(c) the collar head being within an interior of the table leg;

(d) the outer threads providing the positioning by permitting an adjustment of length for the table glide; and

(e) the inner threads securing the floor contact member to the table leg.

Claim ~~11~~<sup>10</sup> (once amended). In a table having at least one leg and at least one table glide mounted on the at least one leg; the improvement comprising:

(a) the at least one table glide having a mounting member and a floor contact member adapted for a permanent attachment of the at least one table glide to the at least one leg of a table;

(b) the mounting member being secured to the floor contact member;

(b) the mounting member being adapted to permanently secure the floor contact member to the leg;

(c) the mounting member including an outer threaded cylinder and a threaded glide mount;

(d) the mounting member being adapted to cooperate with a securing means on the leg in order to permanently secure the floor contact member to the leg and to form the table glide; and

Av.   
 6 (e) the <sup>outer</sup> threaded cylinder being adapted to provide a positioning means for the floor contact member;

(f) the outer threaded cylinder being hollow;

(g) the outer threaded cylinder having inner threads and outer threads;

(h) the threaded glide mount having a tamper proof head and a threaded member; and

(i) the threaded member being adapted to fit into

A<sub>8</sub>  
(canceled)

threaded relation with a threaded insert mounted within the table leg.

Claim ~~13~~<sup>10</sup> (once amended). The table of Claim ~~11~~<sup>10</sup> further comprising:

- (a) the outer threads being adapted to have male-female relationship with a threaded insert of the securing means;
- (b) a threaded aperture receiving the threaded insert at the outer threads thereof; and
- (c) the outer threaded cylinder receiving the threaded member at the inner threads thereof.

A<sub>9</sub>

Claim ~~14~~<sup>16</sup> (once amended). The table of Claim ~~17~~<sup>15</sup> further comprising:

- (a) the outer threaded cylinder having an inner end within the table leg;
- (b) a collar head being secured to the inner end of the outer threaded cylinder;
- (c) the tamper proof fastener having screw threads and an unremovable head;
- (d) the screw threads having male-female relationship with the inner threads of the threaded insert; and
- (e) the threaded insert receiving the outer threads.

A<sub>10</sub>

Claim ~~20~~<sup>18</sup> (once amended). The table of Claim ~~19~~<sup>17</sup> further comprising:

- (a) the mounting member being adapted to cooperate with ~~A~~<sup>the</sup> securing means on the leg in order to permanently secure the floor contact member to the leg and to form the table glide; and
- (b) the outer threaded cylinder being adapted to provide a positioning means for the floor contact member.
- (c) the positioning means for the floor contact member providing and up and down motion for the floor contact member.

Please cancel Claims ~~2~~ and ~~12~~.

#### FEE STATEMENT

No additional fee is due because the number and type of newly added claims are the same as the number and type of originally presented, but now cancelled claims. Nevertheless, an appropriate authorization to charge or credit the deposit account of applicant's attorney is enclosed in the required duplicate original form -- to be used if necessary.

#### DRAWING COMMENT

The comments of the Examiner regarding the drawings in Paragraph 1 of the Office Action are not understood. The terms mounting member, securing means and positioning means are well defined in the specifications with the appropriate amendments. Such amendments are clearly supported by original

claims. Such phraseology is well within the time honored concept, of permitting each patent applicant being his or her own lexicographer. There are elements in the patent application drawings, which combine to show each of the elements.

Applicant believes this paragraph is suggesting the amendments made to specification. Such amendments made to the specification are supported by the claims and the drawings.

#### SPECIFICATION COMMENT

The comments of the Examiner regarding the specification in Paragraphs 2 and 3 of the Office Action are not understood. If the Examiner is seeking precisely the same words in both the specification and the claims, such has now been entered as disclosed in the claims and the drawings. As required, specification amendments are done by the full paragraph.

#### REMARKS

Claims 1, 3 to 11, and 13 to 20 are in the application. Claims 2 and 12 are cancelled. Claims 1 and 11 stand rejected under 35 U.S.C. 102 as anticipated by Rozier et al. Claims 1, 3 to 11, and 13 to 20 stand rejected under 35 U.S.C. 112. Appropriate amendments have been made to overcome the rejections under 35 U.S.C. 112. The rejection under 35 U.S.C. 102 is respectfully traversed. A clean version of the amended claims is within this amendment. A marked version of the amended claims is attached hereto as an exhibit.
